**OFFICE OF THE DIRECTOR**

20 March 1972

MEMORANDUM FOR: Major General Robert E. Pursley  
Military Assistant to the  
Secretary of Defense

SUBJECT : Document Request

1. As we have discussed in informal conversation, it would be most helpful if my office could receive on a regular basis a MACV report entitled, "Weekly Forecast of Military Operations." This document, as you well know, is considerably more than its title suggests. It normally contains information of a kind that is extremely helpful in our continuing efforts to meet the Secretary's needs and comply with his requests for analytic support.

2. If you can arrange for us to receive this document on a regular basis we would of course keep it under tight control and impose any special security restrictions on its handling or readership that you might desire. Any assistance you can give in securing it for us will indeed be greatly appreciated.
